Air Techniques	316	Provecta 3D Prime X-ray	Taking diagnostics to the next level ProVecta 3D Prime combines diagnostic flexibility, ease of use and lower radiation dose. The ProVecta 3D Prime generates a unique 130mm x 85mm jaw-shaped anatomically adapted volume that encompasses all treatment areas without imaging non-relevant anatomy.
		ScanX Classic View Digital imaging System	Air Techniques proudly introduces the ScanX Classic View digital radiography system which enables the intuitive, efficient and time-saving digitization of PSPs for all intraoral formats, sizes 0-4. The Classic View also accepts Extraoral Pan and Ceph plates. Its large touchscreen, easy-to-use interface, and multiple slots for simultaneous scanning contribute to this. The unit is also Wi-Fi capable.
Ansell	345	TQ-601 Soft White Nitrile	Nitrile Exam Glove with HYDRASOFT Skin Moisturizing Technology <ul style="list-style-type: none"> <li>• Designed with our patented HYDRASOFT Skin Moisturizing Technology which is proven to allow skin to retain 2X more moisture than gloves without HYDRASOFT Technology</li> <li>• Soft nitrile formulation provides a comfortable fit and feel</li> <li>• Thin and lightweight to ensure excellent dexterity</li> </ul>
AppDilly	791	Dentist Mobile App	Patient Communication, Anywhere, Anytime! <ol style="list-style-type: none"> <li>1. View appointment schedule, details of the appointment, notes, etc. from within the mobile app.</li> <li>2. Send/receive text messages to your patients from within the mobile app.</li> <li>3. View patient details, notes from the mobile app.</li> </ol>
Dental Herb Company	2346	PerioSpot - Antimicrobial Gum Therapy Gel	PerioSpot is a powerful gum therapy gel designed to help fight bacteria and inflammation directly at the spot. Ideal for stubborn inflammation sites, as well as to enhance periodontal care after dental procedures like SRP's, implants and restorative. Place this concentrated sticky gel directly on the affected site to provide an antimicrobial boost or protection where the gums need it most.
DentaleZ Integrated Solutions	416	Osprey Compressors High-Pressure Mode	Be smart about your compressor choice! RAMVAC® now makes it simple & easy to convert an Osprey Smart Compressor from standard to high pressure whenever needed using the on-board control system. With the high-pressure ranges needed to run a milling machine, our SMART model Osprey compressors can help, allowing the compressor to operate in the range of 105-130 PSI.
		RAMVAC Master Water Control	Reduce the complexity of installation with our new Master Water Control. Make controlling your water supply and safeguarding against leaks simple & easy! No resealing is needed with the easy left/right installation, in addition to a reduced footprint. A visual indicator lets you know when the filter should be replaced. Our new Master Water Control can be used on new or existing installations.
Dentazon Corp.	339	C-Warmer- Anesthetic/Composite Warmer	<ul style="list-style-type: none"> <li>• Warms composite to improve its flow and warms anesthetic for increased patient comfort</li> <li>• Reduces curing time significantly for doctors' convenience</li> <li>• Freely adjustable temperature with digital display</li> <li>• 4.2/5.0 Dental Product Shopper- product evaluation</li> <li>• different-sized ports to accommodate various-sized components</li> </ul>

Company Name	Booth(s)	New Product Name	Product Description
		DX-Mixer HP Mixing Tips	<ul style="list-style-type: none"> <li>• Ensure an easy and secure connection</li> <li>• Consistent and reliable mixing results</li> <li>• Universal and interchangeable with other mixing tips</li> <li>• 4.7/5.0 Dental Product Shopper - Product evaluation</li> <li>• For all viscosities of VPS &amp; Bite Registration</li> <li>• Ease of use makes setting up quicker</li> </ul>
		EZ VPS Connectors	<ul style="list-style-type: none"> <li>• HP Cartridge Connector to transfer leftover impression materials to refill another cartridge</li> <li>• Reusable ribbon-shaped holder leads to easier grip and strong connection</li> <li>• 4.9/5.0 on Dental Product Shopper - product evaluation</li> <li>• No leakage or cross-contamination and the transfer is easy and fast</li> <li>• Allows to save and use all of the VPS material with no waste</li> </ul>
DentLight	1554	FUSION-DOE Cancer/Caries Fluorescent Imaging System	FUSION-DOE is a CR proven Oral Cancer Screening light for early diagnosis of abnormal tissues. Released in this upgrade are both improved optics for large uniform spot illumination and fluorescent viewer that allows the operator to detect not only soft but also hard tissue fluorescence for early caries detection.
		Nano Freedom 2	Nano Freedom 2 is a reconfigurable wireless loupe light that fits on all major loupes and eyewear. The product upgrades the CR proven Nano Freedom loupe light into configurable wireless light. Same small LED lamp now has two built-in connectors to link to either one battery pod for 20k lux intensity, or two battery pods for 40k lux intensity, or optionally to battery pack for all day operation.
DiaDent Group International	1778	Dia-Duo Complete Obturation System	Dia-Duo is a new complete obturation system that consists of Duo-Pen vertical compaction device and Duo-Gun backfill obturation device. Duo-Pen softens, spreads, cuts, and compacts gutta percha and seals all canals including lateral canals. Duo-Gun backfills and can reach 200 degree Celsius within 15 seconds. Its design is ergonomic and lightweight. Duo-Pen and Duo-Gun can be purchased separately.
DiaGold/GoldBurs.com	1759	PLZ Zirconia Polishing Kit	Multi-use high quality autoclavable impregnated diamond rubber polishers 2 step kit \ PLZ
Doxa Dental	771	Ceramir Bioceramic Implant Cement	Ceramir® Bioceramic Implant Cement is a permanent, radiopaque bioceramic cement with excellent handling properties. Good flowability and easy seating, which the Ceramir technology is known to provide, is present in our self-setting Ceramir Bioceramic Implant Cement. The cement has an inherent ability to form a tight seal with ceramics and metals and is therefore optimal for implant cementation.
EdgeEndo	2227	EdgeBurs™	Introducing EdgeBurs™. EdgeEndo® is selling the strongest, sharpest and most durable burs available with unparalleled concentricity. They are manufactured using the latest state-of-the-art Swiss-made precision machine tools. EdgeBurs™ include Carbides, Diamonds, Finishers, Metal-Cutting and Polishers. We now have a bur for essentially every procedure and dental need.
Elevate Oral Care	578	Just Right™ 5000 Metered-Dose Toothpaste	Elevate Oral Care continues to deliver industry firsts. This time with the Just Right™ 5000 metered dose pump. Just Right 5000 provides a pea-sized dose (~.25 gram) of prescription protection with a single push of the pump. Your moderate to high caries risk patients that need to monitor and control fluoride use can benefit from this dose-controlled pump dispensing system.

Company Name	Booth(s)	New Product Name	Product Description
EXACTA Dental Direct	722	Dynax VPS	Dynax VPS is designed for all dentists, whether you have a digital or traditional work flow. The handling characteristics combined with the native scanning ability provide extremely detailed results with any impression method. Available in Heavy Body, Monophase, Light Body, Clear, and Hand Mixed Putty.
Garrison Dental Solutions	1729	FitStrip™ IPR Extension Kit	Garrison's newly devised FitStrip™ Interproximal Finishing and Contouring System has been expanded to include a comprehensive interproximal reduction kit. The new IPR kit provides clinicians with all the diamond abrasive strips and gauges necessary to quickly and accurately prepare teeth and measure interproximal space for advanced aligner treatment.
GCL Systems	789	Gingival Cuff Links System	The Gingival Cuff Links System is a dental implant healing cuff shaped to allow the emergence profile to heal in a shape that functions like natural gingiva to avoid the creation of gaps. The Gingival Cuff Links System is available in 11 different shapes, includes a "T" handle for easy placement, is compatible with composite and is entirely customizable. Visit gclsystems.com or call 833-425-4346.
Gingi-Pak	631	EtchPro	EtchPro is a blue etchant gel containing 38% phosphoric acid; ideally used for etching enamel, dentin or porcelain before adhesive restorations. The uniquely formulated gel mixes evenly to help prevent separation and maintains a superior self-leveling viscosity to penetrate deeply for an optimal sealant bond. EtchPro is dispensed easily with Gingi-Pak's pre-bent needle tip for precise placement.
		GINGICaine® Oral Anesthetic Gel Syringe Kits	GINGICaine® strawberry flavored, 20% benzocaine topical gel, now in syringe form. Provides perfect control for precise application of local oral anesthesia. 1.2mL of gel is delivered by our proprietary micro needle tip featuring a 7 mm gauge mark and rounded end to eliminate poking or tearing of the sulcus during delivery. Economical, with each kit including 20 syringes and 40 tips per package.
iLumi Sciences	373	Super Fiber Post	iLumi Super Fiber Post System - a predictable time saver The new generation fiber optic posts produce omnidirectional and the most powerful light transmission promise thorough polymerization deep down to the root. Above 5X Radiopacity for extra detailed x-ray visibility along with dentin like elasticity.
LED Apteryx/VELscope	2237	XVWeb 3D	The new XVWeb 3D module utilizes cloud technology for accessing, viewing and securely sharing cone beam computed tomography (CBCT) datasets via any compatible web browser in real time. Requiring no downloading of data for image manipulation or enhancement, XVWeb 3D allows practices to access their clinical image data 24 hours per day, 7 days per week from compatible web-connected devices.
Microcopy	1328, 731	NeoBurr 330^2	Microcopy's NEW NeoBurr 330^2 now features a blended neck. After determining that a bur's weakest point is typically the neck, Microcopy upgraded select shapes in the NeoBurr line with a blended neck and single-piece carbide construction. If you're frustrated with burs that break and interrupt your procedures, don't wait, upgrade to the new blended neck today!

Company Name	Booth(s)	New Product Name	Product Description
		NeoDiamond Pediatric Line	Microcopy's new pediatric NeoDiamonds are made specifically for children's dentistry. The Pediatric NeoDiamonds are made with short shanks and are significantly smaller than standard burs allowing for improved access during tough procedures. Available in a variety of shapes, as well as fine and medium diamond grit, these new diamonds allow for what children need – a less invasive cut!
		Proxi-Chek	Proxi-Chek, Microcopy's new interproximal articulation film, clearly marks the point of contact and eliminates guesswork when fitting a crown, saving time and the risk of over adjusting. Proxi-Chek ensures complete marginal seating and leads to more predictable results. The easy grip handle is bendable, allowing the user maximum visibility when marking while placing a crown.
MouthWatch	2330	TeleDent 2.0	TeleDent 2.0 is the new redesigned turnkey teledentistry platform featuring secure live video, store and forward, and internaltask management which optimize teledentistry workflows.
		TeleDent MobileOp	The TeleDent MobileOp is a fully functioning mobile dentistry unit mounted on a hospital grade telehealth cart allowing users to provide comprehensive dental care anytime anywhere.
OraVu	589	DeVA-1 Dental Vision Assistant	The DeVA-1 micro-endoscope system is a state-of-the-art medical device with 1mm fiberscope and high definition tablet providing clinicians with vision into the gingival pocket for definitive non-surgical treatment of periodontitis. DeVA-1 is the only micro-endoscope capable of digital still and video image capture.
		ViRSS Vision Rinse and Safety Sheaths for Dental Endoscopes	Sterilized, one time use safety sheaths for use with DeVA-1 micro-endoscope and compatible with competitor endoscope when used with OraVu hand tools. Subscription ordering plan available to ensure you have sheaths when you need them. Treat your periodontitis patients less invasively with sight into the periodontal pocket using a DeVA micro-endoscope system!
PBHS	1722	Launch Chat	Capture 3x more only patient bookings with Launch Chat. Live online reception for your dental and dental specialty website - 24 hours a day, 7 days a week.
PDT	1581	The Pineyro Arch Kit	The first set of instruments specifically designed for the implant debridement of full-fixed implant restorations. Allows for the treatment of full-fixed hybrid patients without needing to remove the prosthesis.
Planet DDS	2322	Dentilytics Basic	Dentilytics Basic is a powerful new dashboard tool created to enhance your morning huddle experience. Best of all, it's organic to Denticon practice management software, so you don't have to keep layering multiple tools on top of your existing PM software.
		Dentilytics Enterprise	Dentilytics Enterprise is the first reporting tool native to a practice management software that allows for custom enterprise-level reporting. Sleek dashboards, custom reports, and automated data refresh, all with just a few clicks out of Denticon cloud-based practice management software makes Dentilytics Enterprise a valuable tool for dental practices.
Planmeca USA	1662	Planmeca Creo™ C5	Planmeca Creo™ C5, is a 3D printer custom-engineered for dental professionals. Planmeca Creo C5 is specified for use in high-speed printing of surgical guides and dental models. The capabilities of this revolutionary high-speed printer include: surgical guides or dental models in less than 15 minutes and printing up to five full arches in one print. Easily import STL/PLY files for 3D printing.
